

AREA AND PERIMETER OF RECTANGLES REVIEW

Name: _____ Class: _____ Due Date: _____

Family Member Signature: _____

Objective:

To review finding the area and perimeter of rectangles.

Necessary Information:

Perimeter is the distance around a shape. It is measured in units.

Area is the space inside a shape. It is measured in square units.

Practice Section:

1. Use the diagrams to complete the blanks.

b = _____ h = _____

A = _____

P = _____

10 cm

2 cm

4.5 cm

2 cm

b = _____ h = _____

A = _____

P = _____

$$b = \underline{\hspace{2cm}} \quad h = \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}}$$

$$P = \underline{\hspace{2cm}}$$

48 cm²

8 cm

$$b = \underline{\hspace{2cm}} \quad h = \underline{\hspace{2cm}}$$

$$A = \underline{\hspace{2cm}}$$

$$P = \underline{\hspace{2cm}}$$

In Your Real World:

With a family member, determine the following areas.

$$A_{\text{of one square}} = \underline{\hspace{2cm}}$$

$$A_{\text{whole bar}} = \underline{\hspace{2cm}}$$

Discuss how you will split the bar up so each family member has an equal portion.
